

VILLAGE POINT REHABILITATION & HEALTHCARE

A SPRINGPOINT COMMUNITY

Rehabilitation • Memory Care
Long-Term Care

*Discover exceptional care
in a community setting*

Welcome

Village Point Rehabilitation & Healthcare is a new state-of-the-art 87,000-square-foot healthcare center on the Monroe Village campus that offers high-quality health services with modern innovative programming and amenities. We serve the individual needs of our residents with an array of services that include rehabilitation, memory care and long-term care.

Our four distinct neighborhoods are designed to reflect specific care needs. Each neighborhood has its own kitchen facilities and dining room, activity rooms and other inviting common areas with abundant natural light.

- A sub-acute care neighborhood with all private rooms and a dedicated physical therapy/rehabilitation gym
- A secure memory care neighborhood
- Two long-term care neighborhoods

Village Point is backed by the security and proven success of Springpoint, a nationally recognized leader in senior living with over 100 years of high-quality service to seniors. You can feel at ease knowing that our professional well-trained staff provides exceptional 24-hour care and support. Village Point consists of 120 private and semi-private beds situated on a five-acre site on the Monroe Village campus.

Rehabilitation

Each private room is appointed with ample space for visiting family and friends, large windows to enjoy the scenery and natural light plus an individual bathroom and shower for privacy and comfort.

Our comprehensive physical rehabilitation and wellness services are designed to help maintain and improve physical strength, endurance and independence following any medical condition or procedure.

With our highly trained physical, occupational and respiratory therapists providing services seven days a week, we are committed to the five-star standards of care and wellness.

The comprehensive services include:

- HydroWorx® aqua therapy
- On-site occupational therapy kitchen
- Orthopedic rehabilitation
- Stroke rehabilitation
- Neurologic rehabilitation
- Pulmonary rehabilitation
- Cardiac management
- Parkinson's therapy
- Dysphagia management
- Seating and positioning programs
- Home safety assessments
- Cognitive enhancement
- Communication enhancement
- Driving evaluation and therapy

Memory Care

Connections: A Dementia Care Model of Excellence is an exclusive Springpoint program and it serves as our model for advanced memory care. Our highly trained professional staff members apply person-centered care approaches and best practices. We use a daily incident tracker to spot problems early. We introduce activities built around vocational and life skills and strive to help residents maintain their individuality, independence, dignity and self-esteem. Our secure home-like setting helps maximize comfort and confidence so residents can enjoy the comfort of family, friends and neighbors while maintaining privacy. We offer access to enclosed outdoor spaces to nurture the enjoyment of natural light and surroundings. We strive to make each resident's day one of reassurance and security.

Long-Term Care

For individuals who experience health challenges and require access to a higher level of care, we offer long-term care that combines a high-quality lifestyle with around-the-clock nursing supervision and ongoing support. Long-term care residents have access to therapy and all other community programs and services. Our team includes licensed nurses, therapists, dietitians and certified therapeutic recreation specialists. This team approach helps ensure that each resident receives the best possible care. Our large rooms are homey and inviting, with bright windows and soothing views of autumn leaves glowing gold or spring flowers bursting into bloom. They're supported by some of the most advanced technologies for medical records and patient monitoring available.

We provide a comprehensive level of care in a state-of-the-art facility. Expect the best.
